### Product Features

- Strata Cores tipped with the latest layered diamond technology
- Start with this non dust extracted core kit and purchase a Multiswivel® dust extraction kit (DDEXTKITSTR) to drill with no dust - and if you encounter materials better suited for wet drilling - purchase a wet conversion kit (AMSWETCONVKIT) to wet drill (110v only) all with the same Strata core kit!
- Use short core first then hollow extension for drilling upto 400mm thick cavity walls
- 107, 117, & 127mm 3 core kits also available
